Mercedes Prototype Parts - Lapeer

Team,

The prototype parts required for the 166 Program, from Gestamp Lapeer, have been done by Schwab Ind. Schwab has been the best cost & timing of all the other prototype shops that quoted & have had 100% quality.

Phil Serra and his team have kept Gestamp as a "Priority" as parts have been required over the last eight month, normally beating the delivery by half the time.

Schwab's performance should keep them on everyone's list for future work.

Thank you for your support

Kurt P. Lewis, Sr.
